

## DermaMed™

In 1992, German botanical scientist Bernard Armani discovered a natural alternative to hydrocortisone in his search for a natural yet effective formulation to relieve dry, itchy, and irritated skin. This game-changing formula is what's known today as the All Purpose Balm. After several more years of research and product development, Mr. Armani launched DermaMed in 1997 with a line of natural remedies. Since then, DermaMed has expanded its offerings to include skin care, baby care, sun care, and personal care. We uphold our commitment to providing effective natural care products by using only the purest, certified organic and sustainably-grown natural ingredients.

## Natural Specialty Products that Actually Work!

DermaMed™ combines advanced botanical research, strict quality guidelines, and the finest ingredients to create effective natural solutions which help relieve various skin conditions and sources of discomfort. Using our innovative Phyto Technology, DermaMed formulations are easily absorbed into the skin to provide fast and effective relief. These natural solutions for skin conditions are approved by Health Canada.

"I never write reviews, but I felt had to for this special product. [All Purpose Balm] healed my hands for chemical burns I had under the layers of the skin from exposure to glycolic acid that nothing else would heal. It penetrated the deep layers of the skin and completely healed them in days after trying hydrocortisone cream for 2 weeks. The healing process was immediate after just the first application and all the pain, redness and swelling went away after 7 -10 days of use. This product was a miracle cream for me. Thank you!"

"I want to thank you for making DermaMed Formula A. My boyfriend has had an itchy foot problem for more than 4 years. He has seen his family doctor, and also tried different kinds of prescriptions. His condition was helpless until we came across your product. It was effective. Thank you so much!"

"This is my story. I was in Whole Foods and was hit with a sudden migraine. I was actually losing my vision and told my friend we had to leave. She suggested they may have a natural product to try, and the rep at whole foods gave me some Tension Balm (at the time called Migracell) and I applied it to my temples, forehead and neck. I was stunned. Within minutes, my vision cleared, and the migraine was gone. Actually gone. I had suffered from migraines for a few years due to a neck injury, and found no relief. This was the first product that stopped them. I still use the product for any headache. It just works."
